**Subject:** Wilcox Oil Company Remedial Design work plan--Technical Evaluation

Billy, please find attached the Technical Evaluation for the Wilcox Oil Company Remedial Design work plan (WP). The WP, Contract EP-W-06-004, was submitted by the contractor on August 23, 2018. Initial review resulted in submittal of questions for EA on September 5, 2018, which were responded to and found to be acceptable on September 6, 2018. The revised WP was provided to EPA on September 7, 2018.

This work plan should be fully funded at the amount of \$214,747. I understand that this is \$85,251 less than the amount of \$300,000 requested. After review of the work plan, it is reasonable and considered acceptable at the estimated cost of \$214,747. This WP will achieve the objectives of the RD SOW.

Please contact me with any questions or comments.
